G-2000 immediately strikes everybody's attention for the particular shape of its cabinet, looking like a gondola, with inclined legs whose arch-cut cross-panel conveys a soaring and modern impression. Even more elegant and fashionable with the new gray oakwood look. Available also in the blue or cherrywood traditional versions.

Hheavy duty 25 mm thick MDF cabinet with melamine coating. Colours: oakwood, cherrywood or blue.

40mm thick MDF slanting legs coated with melamine. Colours: black. (fig. 1)

16mm diameter high stress resistance steel bars coated with anti-rust chromium-plating. On choice, going-through bars or telescopic safety bars. (fig. 2)

Steel roller bearings to greatly improve the game speed, while reducing the stress for the players' wrists.

Red and blue players in unbreakable plastic moulded onto the bars. (fig. 3)

Fully rotating (360 degrees) or non-rotating goal-keeper (180 degrees) on choice.

Playing field in choice of tempered transparent glossy glass, non-reflective sanded glass or plastic laminate. Green background with white lines to look a football ground.

Quick and easy ball recovery through an exit behind each goal (fig.4).

10 white Standard balls supplied.
